Germany.

06-08-2010

Dear Ursula and Elmar Westrup,

Greetings from Enikepadu, Andhra Pradesh, India.

How are you? Hope that by the grace of God both of you are fine.
We remember you in our daily prayers and pray for your good health
and peaceful life

I write this thank you letter in the name of the poor children studding in our hostels as well as the AIDS patients and their children whom we serve for the last four years. All of us here gratefully acknowledge the financial help you sent through Fr. Tomichan C.M, Schuecking Strasse-15, 48231-Warendorf, Germany. The education and taking care of the 150 children of very poor parents in our hostels and the unfortunate AIDS victims and their children from economically very poor background was possible only with the financial help that you sent. The children in the hostels are fed well, provided with educational items and send to the school, their medical, recreational and intellectual as well as the moral formation also are taking care of. The AIDS patients and their children who have no one to take care but abandoned and left out by their own kin and kith are taken care of by us. Our province also extent helps for the AIDS victims. They are provided with food materials and medicines. They are given counseling to maintain their mental balance. Some of the children of AIDS patients are also affected and others not affected are also taken care of.

We appreciate your concern for the poor children and the AIDS patients who have no one to take care of them. We are very grateful for all what you do for the poor of our area. We know that you too have many needs and you too at times find shortage of money to meet all your needs. Still then, as Fr. Tomichan has told us, that you for go some of your legitimate needs and find some money to help the unfortunate children and the poor of our area. It is a very great and remarkable act of charity and love for the poor. We are very much edified with your heroic sacrifices taken upon yourselves
